

## **365 – Medical Assistance for Patrons**

### **1.0 PURPOSE**

Patrons of the Des Moines Pool Metropolitan Park District (District) recreation programs may suffer from allergic reactions or have medical conditions which require the administering of injections or medications. It is possible that District staff may be requested to administer medications or injections, particularly to minors.

### **2.0 POLICY**

District staff should refrain from administering shots or medications of any kind. The District's position is that medications and injections should only be administered by healthcare professionals who are trained and licensed in the State of Washington.
