527 – Use of Electronic Signatures Policy

1.0 PURPOSE

To establish an electronic signature policy for the Des Moines Pool Metropolitan Park District “District” developed to:

- Promote efficiency in order to conserve public resources;
- Establish guidelines for the use of electronic signatures for certain District transactions;
- Provide reasonable assurance of the integrity, authenticity, and nonrepudiation of electronic documents when electronic signatures are used by the District; and
- Determine the scope of the District’s use of the current electronic signature provider DocuSign as the approved method for affixing an electronic signature to an electronic record. These policies will apply to any future replacement of the DocuSign platform.

Reducing the District’s reliance on paper-based transactions will further improve information security and sharing, allow faster approval of and access to documents, and reduce costs and environmental impact.

2.0 SCOPE

Streamlining the processes described herein that require wet signatures and replacing them with electronic signatures, when practicable, is consistent with the intent of Washington State law to promote electronic transactions and remove barriers that might prevent the use of electronic transactions by governmental entities.
